

## **[Join us](#) and help make the 2015 European HIV-Hepatitis Testing Week successful all over Europe!**

The 2015 European HIV-Hepatitis Testing Week is **only 3 weeks away**. At this point **284 [participants](#)** have signed up. Remember, even though you/your organisation took part in previous years, this year we have **started the count from zero**, therefore if you wish to participate in 2015 you will need to **sign up again**. Help us make testing week as big a success as in 2014 and **sign up [here](#)**. Also, just to inform you, this will be the last newsletter sent to all previous participants of Testing Week 2013 and 2014. From now on newsletters will only be sent to participants, who have signed up for this year's Testing Week.

### **[Get your Ministry of Health involved!](#)**

This summer the [HIV in Europe Secretariat](#) wrote to all the Ministries of Health across Europe, encouraging them to sign up and support the 2015 European HIV-Hepatitis Testing Week. Unfortunately there has been little response to these letters.

We would like to ask for your help in contacting the Ministry of Health in your country and encourage them to take part in this year's testing week to get support on national level. This will further help raise awareness of the serious public health concerns HIV and Hepatitis pose for Europe.

### **[We would love to hear from you!](#)**

Please get in touch with us ([hie.rigshospitalet@regionh.dk](mailto:hie.rigshospitalet@regionh.dk)) if you need help with translation of logo or have questions about materials or if you have an announcement or information you would like us to share in this newsletter.

We would also love to follow your activities on social media in the run up to and during the testing week. Please notify us by using the testing week hashtags [#EuroHIVHEPtestweek](#) and [#TestTreatPrevent](#) or mention [@HIVheptestweek](#) and we will retweet you.

We will also be posting about the 2015 European HIV-Hepatitis Testing Week, follow news on our [Website](#), [Facebook](#) and [Twitter](#).

Join the new [European HIV-Hepatitis Testing week 2015 Facebook group!](#) The group is meant for you to post updates, share questions or upload materials developed for testing week. We encourage you to share your plans for testing week, photos of your activities

and any advice that could benefit the other participants.

As previously communicated we have set up a Thunderclap, an “online flashmob”. Please support the campaign by clicking on this link <http://thndr.it/1VdjbWh> and choose one of the three red buttons to support us with Facebook, Twitter or Tumblr. On the first day of this year’s Testing Week (20 November), this one-off message will automatically be posted by everyone who supported the campaign. We need at least 100 supporters to implement this campaign. **Please show your support today and let’s start off testing week with a Thunderclap that will resonate all across Europe.**
