

Thanks for joining this year's Testing Week!

1 week to go - Test.Treat.Prevent

The 2015 European HIV-Hepatitis Testing Week takes off in **one week!** We are thrilled that so many have signed up for this year - the testing week is only a success because of *you*.

So far **366 participants** have signed up - but there is room for more! Please help us spread the word so that even more activities can take place and even more people can become aware of the benefits of testing. The list of signed up participants can be found [here](#).

Materials for your use are available on the website

Lots of useful materials for this year's testing week are available on the [website](#). These have been developed to help support organisations during the European HIV-Hepatitis testing week.

The Dossier of Evidence (Toolkit 3) is available for both [HIV](#) and [hepatitis](#). These and much more material, such as a [Toolkit 2](#) (an implementation handbook) and [Toolkit 8](#) (how to fundraise) can be found on the website [here](#).

Evaluation of this year's Testing Week

Thanks to all of you who have answered the **pre-testing survey** (N=132). This has provided us with great insight into all the activities that will take place during this year's testing week. We would also like to thank many of you for your willingness to provide more detailed testing data. Being able to see how many are tested and how many are testing positive during this week will be very valuable to us and other testing week stakeholders.

As has been done in previous years a **post evaluation survey** will be sent to you after the testing week. We know that surveys

are difficult to find time for - but we would greatly appreciate your input

and your answers will be reported in the 2015 evaluation report which will be available on the website as soon as it is finalised.

We would love to hear from you!

Please get in touch with us (hie.rigshospitalet@regionh.dk) if you need help with translation of logo or have questions about materials or if you have an announcement or information you would like us to share in this newsletter.

We would also love to follow your activities on social media in the run up to and during the testing week. Please notify us by using the testing week hastags [#EuroHIVHEPtestweek](#) and [#TestTreatPrevent](#) or mention [@HIVheptestweek](#) and we will retweet you. We will also be posting about the 2015 European HIV-Hepatitis Testing Week, follow news on our [Website](#), [Facebook](#) and [Twitter](#).

We also have a [2015 Facebook group](#)! Please join and use as you wish by posting updates, questions or materials developed. We encourage you to share your plans for testing week, photos of your activities and any advice that could benefit the other participants.

Lastly, there is still time to join the testing week [Thunderclap](#) This is an "online flashmob". On the first day of this year's Testing Week (20 November), this one-off message will automatically be posted by everyone who supported the campaign. Please support the campaign by clicking on this link <http://thndr.it/1VdjbWh> and choose one of the three red buttons to support us with Facebook, Twitter or Tumblr. **Show your support today and let's start off testing week with a Thunderclap that will resonate all across Europe.**

#TestTreatPrevent

by European HIV-Hepatitis Testing Week category: **Health**

A blue banner with white text that reads: "Today #EuroHIVHEPtestweek begins. Help us raise awareness! #TestTreatPrevent http://thndr.it/1LaHyiB". There is a small logo in the bottom left corner.

A white box with black and red text showing campaign progress: "SUPPORTERS 105 of 100 105% of goal supported", "SOCIAL REACH 122,552 People", and "TIME LEFT 0 1:00".

With kind regards,
The European HIV-Hepatitis Testing Week Secretariat
