

## Welcome to European HIV-Hepatitis Testing Week 2016! 18-25 November 2016

As a Participating Partner in 2015, we would like to confirm that you are willing to continue the good work and remain a part of this pan-European project in 2016. Remember, European HIV-Hepatitis Testing Week 2016 cannot succeed without your active participation!

**If you signed up in 2015, but do not want to be a part of this year's activities, please let us know** at [hie.rigshospitalet@regionh.dk](mailto:hie.rigshospitalet@regionh.dk). Your contact details and sign-in account will be deleted only after you request us to do so, in writing.

As was the case last year, the type of activity you choose is entirely up to you. Last year, Participating Partners reported a variety of activities, ranging from advocacy and capacity building, to awareness-raising and outreach HIV testing (for more detail and inspiration, see the official [evaluation report](#)).

To help us know a little bit about all the great activities that will take place during this year's ETW, **please take 2 minutes and fill in our brief pre-ETW survey** which will be sent in a different e-mail.

Also, please check out the testing week website (<http://testingweek.eu/>). The process of revamping for 2016 is on-going and we are working on having the website, materials and toolkits fully updated as soon as possible. Please check back for updates and new 2016 materials.

Please also take the time to follow us on our [Facebook](#) and [Twitter](#). We shall be using these social media platforms to announce relevant updates and also synchronise 'calls for action' in the coming week and months, so do watch out for them! You can also join our [ETW Facebook Group](#), designed for you to post and follow other Participating Partners during the lead-up to the main event in November.

Here's to making European HIV-Hepatitis testing week 2016 an even greater success!

With Kind Regards,

The European HIV-Hepatitis Testing Week
