Join us for the upcoming #EuroTestWeek webinar next week!

For the lead up to the 2019 November ETW, the initiative will host one webinar each month from September to November. The next webinar “Moving towards integration: ECDC public health guidance on HIV, hepatitis B and C testing in the EU/EEA” will be **Tuesday, 24 September 2019 from 13:00-13:30 CET**.

Anastasia Pharris ([European Centre for Disease Prevention and Control – ECDC](#)) will provide an introduction on the development of the ECDC guidance and present the recommendations in implementing integrated testing for HIV and viral hepatitis.

The webinar is completely **free** and there is **no registration**.

To join the webinar, simply click on this [link](#) or copy/paste this link (<https://c.deic.dk/etw24septwebinar>) into your browser *10 minutes before* the start of the webinar.

For more information, visit the Webinar page on the ETW website [here](#).

Free rapid HIV tests for participating #EuroTestWeek organisations in select countries!

We have partnered with [Owen Mumford](#) for the November 2019 ETW who will provide **FREE Simplitude™ Pro HIV tests** on a first-come-first-serve basis for participating ETW organisations in the UK, Ireland, Poland, Netherlands, Belgium, Germany, Austria and Switzerland. [Simplitude™ Pro HIV](#) is the world's first professional use rapid diagnostic test with a built-in safety lancet, blood collection unit, and test strip.

For more information and how you can qualify for free tests, visit the ETW website [here](#) (<https://bit.ly/2IULnTr>)

New Factsheet, logos, theme statement

In August, we announced that the theme of the November 2019 ETW will emphasise the importance of integrated testing of HIV, hepatitis B, hepatitis C, and sexually transmitted infections (when possible), as well as other related activities focused on increased awareness and access to testing and treatment, highlighting the importance of ETW's longstanding tagline of Test.Treat.Prevent.

condition (when possible). To read the theme statement, [click here](#).

Tying into the theme of integrated testing, a **new factsheet on sexually transmitted infections (STIs)** has been developed. The new factsheet provides an overview of the current situation regarding three STIs monitored by the EU across Europe (chlamydia, gonorrhoea and syphilis). You can download the new factsheet [here](#).

Lastly, we are currently working on updating the rest of the ETW materials to the latest data but in the meantime, you can download the [2019 ETW logo in French, German, Italian, Polish, Russian and Ukrainian](#) with more translated versions soon!

If you want the ETW logo in your local language, please contact us as eurotest.rigshospitalet@regionh.dk

If you **no longer want to participate in ETW**, please click the "Opt-out" button below and follow further instructions.

By choosing to "Opt-out" of European Testing Week, your organisation will:

- Be removed from our [list of signed-up organisations](#);
- No longer receive the ETW newsletter, announcements or promotional offers with diagnostic kit companies.

Opt-Out of European Testing Week
