

EUROPEAN TESTING WEEK

TEST.TREAT.PREVENT.
www.testingweek.eu

What is European Testing Week?

European Testing Week is a European campaign that encourages participants to unite for one week twice a year to increase testing efforts and promote awareness on the benefits of earlier testing for HIV, viral hepatitis and STIs.

CATCH UP ON TESTING!

The Covid-19 pandemic has had a severe impact on testing levels. This has caused the number of undiagnosed infections and late diagnosis to rise

How can you help?

European Testing Week calls upon its network to strengthen the response to HIV, viral hepatitis and STIs, and pledge to engage in integrated testing and other related activities for European Testing Week. ETW encourages the network to recognise the importance of integration and consider developing ways, big and small, to further inform target audiences about the importance of prevention, testing and treatment for HIV, viral hepatitis and STIs.

SIGN-UP NOW AND GET INVOLVED!

- ✓ **Government bodies** and officials can help raise awareness of the benefits of integrated HIV, hepatitis and STI testing
- ✓ **Healthcare professionals** can offer integrated HIV, hepatitis and STI tests where relevant
- ✓ **Community organisations, mobilisers and community members** can help to increase awareness and access to HIV, hepatitis and STI testing
