

# Spring European Testing Week 2025

## European Testing Week Newsletter

May 2025

### Get ready for Spring European Testing Week 2025

Spring European Testing week 2025 kicks off next week, running from 19 to 26 May 2025. Hundreds of organisations across Europe will come together to support the **#TestTreatPrevent** initiative, raising awareness and promoting testing for HIV, viral hepatitis, and STIs.

There's still time to get involved! Add your organisation to the list of active participants for the Spring campaign by [signing up on our website](#).

Don't forget to [download our official campaign materials](#) (including logo, flyers and web banners) to help spread the word and show your support.

## European Testing Week 2025 annual theme

For 2025, the theme of European Testing Week focuses on the need to ensure better access to testing services and linkage to care for migrants and mobile populations.

The statement includes practical recommendations for inclusive and effective actions, as well as a number of resources on the topic. Please feel free to use and adapt the statement and messages to your local context.

[The statement is available on our website here.](#)

### Join Spring #EuroTestWeek online webinars

**Good practices for reaching migrants and mobile populations in Europe**  
with screening/testing for HIV, STIs & viral hepatitis, and for ensuring linkage to care

21 May 2025, 14:00-15:00 CEST

**Good practices for reaching migrants and mobile populations in Europe with screening/testing for HIV, STIs & viral hepatitis, and for ensuring linkage to care**

Migrants continue to face significant barriers to timely diagnosis and care for HIV, hepatitis, TB, and STIs in the EU/EEA.

This webinar will highlight key data, practical strategies, and real-world experiences from Spain, Malta, the Netherlands, and Eastern Europe. Experts will share insights on cultural mediation, rights-based care, and reaching vulnerable groups such as asylum seekers and LGBT+ individuals. Join us to explore inclusive, evidence-based approaches to improving health equity and access for all.

**Wednesday, 21 May 2025, 14:00 - 15:00 CEST**

**Register for the webinar:**

WEBINAR

**Findings from “EMIS 2024” on HIV and STI testing behaviour among men who have men with sex and trans people - implications for testing interventions**

23 May 2025, 14:00-15:00 CEST

**Findings from “EMIS 2024” on HIV and STI testing behaviour among men who have men with sex and trans people - implications for testing interventions**

This webinar will present and discuss findings from the European MSM Internet Survey (EMIS-2024), specifically focusing on HIV and STI testing-related behaviours among MSM and trans people in Europe.

A panel of experts will explore what the findings mean for testing efforts and how this knowledge may be translated into actionable strategies for improving awareness and access to testing in order to ensure early diagnosis for these communities. Webinar participants will be able to ask questions to the presenter and panellists.

**Friday, 23 May 2025, 14:00 - 15:00 CEST**

**Register for the webinar:**
